

ANSHIKA

ASPIRING SOFTWARE DEVELOPER

9536339649 | anshikapassi0777@gmail.com | LinkedIn: linkedin.com/in/anshika-passi-b6588433a | Saharanpur, India

PROFESSIONAL SUMMARY

BCA graduate and aspiring Software Developer with a strong foundation in **Python, HTML, CSS, JavaScript, SQL, and web development**. Experienced in building academic web applications, including a **Lost and Found Key Management System**. Strong in problem-solving, logical thinking, debugging, and continuous learning, with an interest in developing practical, user-focused software solutions.

TECHNICAL SKILLS

- **Programming:** Python, JavaScript, basic Java
- **Web Development:** HTML, CSS, Flask, responsive web design
- **Database:** SQL, database fundamentals, CRUD operations
- **Tools & Platforms:** Git, GitHub, VS Code
- **Core Skills:** Problem solving, logical thinking, debugging, teamwork, quick learning

PROJECTS

Lost and Found Key Management System | Academic Group Project

- Developed a web-based solution to help users report, manage, and find lost or found keys in an organized manner.
- Implemented a simple user-focused interface and structured record management to make searching and reporting more efficient.
- Applied skills in HTML, CSS, Python/Flask, and database concepts while working on the project.
- Strengthened practical skills in web development, data management, debugging, and problem-solving.

Grocery Delivery Web Application | BCA Final Year Project

- Web application concept for online grocery ordering and delivery, with user, admin, and delivery-oriented modules.
- Focused on application flow, database organization, and practical web development using Python Flask concepts.

EDUCATION

Bachelor of Computer Applications (BCA) | Shobhit University, Gangoh | 2023–2026

CERTIFICATIONS

- Agentic AI Certificate — foundational learning in AI concepts and agent-based intelligent systems.
- Quiz Certificate — certificate recognizing participation/completion in a knowledge-based quiz.

STRENGTHS & CAREER OBJECTIVE

- Quick learner with a practical, creative, and adaptable approach to new technologies.
- Strong interest in software development, web technologies, and solving real-world problems through code.
- Career goal: begin a software development career, contribute to real-world projects, and continuously grow technical and professional skills.

ADDITIONAL INFORMATION

- Languages: English, Hindi
- Interests: Software development, web technologies, learning new tools, and building practical projects
